THE ACCIDENTAL SUFFRAGIST

It's 1912. After a tragic event, Helen Fox—a factory worker living in New York's tenements—attends her first suffrage meeting, quickly becoming seduced by the cause. Accepting a job offer from leader Harriot Stanton Blatch, Helen finds herself working alongside famous activists as she tries to change the world, afford the basics, and balance a disgruntled family back home when she marches to Washington, D.C. In a time when the obstacles for women—from any background—were insurmountable, Helen discovers her voice and dreams of equality in a male-dominated society.

"Within this fascinating historical context, Gichon also explores the challenge and compromise inherent to working motherhood, a topic equally relevant today as it was then."

Heather Frimmer, Author of

"A multidimensional, fascinating and unputdownable story— and important for this moment."
